

Q 2. Create a webpage to display CSS in hyperlinks.

```
<html>
  <head>
    <title> CSS hyperlink </title>
  </head>
  <style>
    a {
      text-decoration: none;
      color: aquamarine;
      font-family: cursive;
      font-weight: bold;
    }
    a: hover {
      background-color: violet;
      font-size: 20px;
      text-shadow: 3px 3px Black;
    }
  </style>
  <body>
    <ol>
      <li><a href="#"> Electronics </a></li>
      <li><a href="#"> Perspectives </a></li>
      <li><a href="#"> References </a></li>
    </ol>
  </body>
</html>
```
