Q.2) Create a web page than display css in typerulink?

Ans.
```
<html>
    <head>
        <style>
            a: Link { Color: black; }
            a: Visited { Color: green; }
            a: hover { Color: yellow; }
            a: active {
                Color: pink; }
        </style>
    </head>
    <body>
        <a href= " https://en.wikipedia.org/wiki/Internet"> click
        </a>
    </body>
</html>
```
